Procaffe moves in more ways than one!

New location

After commencing its operations officially under the name of Procaffe (Australasia) Pty.Ltd in the year 2000, the company has now experienced significant growth 8 years on and is now planning to take the business to the next level. As a result the head office, showroom and warehouse have now moved to a new location and is now located at Unit 14/150 Chesterville Road, Moorabbin , Victoria.

The new premises and addition of new staff and products will now enable the company to further expand its operations and also commence servicing interstate markets such as Sydney, N.S.W.

Therefore we welcome anybody that finds themselves in our area to drop in for a coffee of course and view our range of equipment.

Fair Trade Coffee

In keeping up with the ever changing moral values and obligations that corporate companies are adopting, Procaffe is now offering a Fair Trade and Fair Trade organic range of coffee beans.

The range is 100% produced in Australia from beans sourced from around the world and is HACCP accredited by Food Operations Pty Ltd.

The range complies with the Fair Trade Association of Australia and New Zealand and Fairtrade Labeling Australia & New Zealand (the regional FLO Labeling Initiative) and IFAT the International Fair Trade Association.
